

WEARABLE TOUCH-FREE SANITIZER DISPENSER

Sanitize Your Hands Anytime + Anywhere

LIFE+GUARD IS A REVOLUTIONARY NEW TYPE OF DISPENSER

LIFE+GUARD is a wearable touch-free dispenser, worn on either a lanyard or a belt clip

- As a **wearable device**, LIFE+GUARD is always within reach
- As a **personal device**, the user can make sure that it's always topped up and ready to use
- LIFE+GUARD's accessibility and ease of use will boost hand hygiene standards and drive demand for hand sanitizer

Innovative wearable hand sanitizer dispenser

- ✓ Hand sanitizer always within reach "ANYTIME+ANYWHERE"
- ✓ Worn on your belt or on a lanyard
- ✓ Touch-free operation. Simply place 2 fingers at the bottom and an infra-red beam activates a built-in pump that dispenses sanitizer into your hand.
- ✓ Refill with any hand sanitizer gel
- ✓ Contains enough sanitizer for a whole day
- ✓ Single recharge delivers 1,000 doses
- ✓ Easy recharge with a USB cable (supplied)
- ✓ 3 electronic dispense volume settings
- ✓ Sanitiser level window
- ✓ Sleek, modern design
- ✓ TSA compliant: 60ml capacity
- ✓ Electronic battery status indicator

ESSENTIAL EQUIPMENT FOR ESSENTIAL WORKERS

Professional Applications

**Airline & Airport
Hotels & Cruise Ships
Theme Parks**

- Protect roving airline, cruise ship, theme park and hospitality workers and their guests from inter-personal and surface contamination.
- Never before have these professionals had immediate access to sanitizer as they encounter infection hazards.
- These environments pose increased risk to staff and patrons with frequent interactions in close proximity.

Professional Applications

Hospital applications include:

- Medical staff on ward rounds, moving quickly from patient to patient
- Nurses giving patient care
- ‘Hands-on’ applications such as physiotherapy
- Elderly care facilities
- Hospital Porters
- Hospital cleaning and maintenance staff
- Food service workers serving patient meals

NO INSTALLATION OR MAINTENANCE REQUIRED, UNLIKE FIXED DISPENSING SYSTEMS

FIGHT AGAINST HOSPITAL ACQUIRED INFECTIONS

Practicing hand hygiene is a simple yet effective way to prevent infections.

On average, healthcare providers clean their hands less than half of the times they should.

On any given day, about one in 31 hospital patients has at least one healthcare-associated infection.

LIFE+GUARD puts hand sanitizer constantly within reach, making it simple for healthcare workers to clean their hands when they need to.

World Health Organization's five moments for hand hygiene
